## Description of Educational Services:

1. HPO/NCO Certification: Every Unit at Company level is required to have an appointed (on orders) Hearing Conservation Officer/NCO. This class is designed to educate, train and certify personnel to become their Unit HPO/NCO representative. Please enroll committed soldiers (NCO and above) who are able to instruct, educate, and enforce Hearing Program guidelines IAW DA Pam 40-501, AR 40-501, G-1 PPG standards, CHPPM, and all outlining guidelines from the OTSG.

2. Annual Hearing Conservation Brief: Each Unit at Company level will receive an annual briefing to increase education and awareness of the Hearing Program IAW DA Pam 40-501.

3. Mass/Group/ Unit Earplug Fitting: The Fort Carson SRC has many qualified personnel working the Hearing Readiness section, BLDG 1040, West Side. They are able to provide mass fittings of earplugs to all Units on a walk-in basis. Please call (719) 526-6976 to notify them of groups larger than 25.

4. Operational Seminars: The Fort Carson Hearing Program is working diligently with all Units to aid them in resolving communication, hearing, and safety issues. We offer consultations and briefings on new product awareness (i.e. Quiet Pro Communication System, Peltor Headsets, CEP, etc.). Please contact (719) 526-6976 to schedule appointments with the Hearing Program Manager.
