Obstetrics & Gynecology moves out of Premier Army Medical Health Clinic

The Obstetrics & Gynecology portion of Premier Army Medical Health Clinic is moving back to Evans Army Community Hospital.

The OB/GYN clinic at Premier closes on May 17th so providers and staff can prepare for the move. Those providers will be operational at the main hospital on May 22nd.

During the transition, the Evans Army Community Hospital OB/GYN clinic remains open. This clinic is located on the first floor, west entrance of the facilities. Services will continue to be offered to patients at the main hospital.

Alternate locations for OB/GYN services include the United States Air Force Academy and Peterson Air Force Base. Former Premier OB/GYN patients may indicate where they prefer to receive care based on availability of appointments at those alternate locations.

The OB/GYN Department looks forward to providing its patients with the same high standards of professionalism and concern and we remain committed to your care during this transition.

Please address any medical care options with one of the nurses within the Premier OB/GYN clinic or call (719) 524-7618 or (719) 526-7456.
